

I've worn many hats through the years...

Vagabond... "I once believed I would know where my place was when I arrived there. I hitch-hiked across country alone, traveled around the US performing, and moved several times (from East to West Coast and back) as a younger adult."

Teacher... "When I was living in San Diego, I taught beginning group piano classes and implemented a tot (ages 3-5) music program at Loma Verde Community Center in Chula Vista. Later, as a parent, I coached my daughter for classical & pop competition performing and took on a couple of vocal coaching requests. I am not a traditional teacher, preferring to give students the skills, boost confidence, and drive to move forward on their own."

Partner... "My first partner later became my first husband and father of our beautiful, talented, daughter, Amber. We formed a dance-able duo known as 'Aurora'"

Soloist... "I've performed as a soloist most of my life, learning how to accompany myself with guitar & piano instrumentation - yet always hoping to find a strong connection with other creative writers & reliable/talented performers for partnership & collaboration."

Agent... "My first partner & I operated a successful entertainment agency in the Northwest called 'Aurora Entertainment'."

Board-member... "I served on the board of the musicians' union (Boise, ID) and on the board of a wedding trade show called 'The Wedding Party'."

Mother... "I took a hiatus from performing while raising my daughter, but I kept my hands and heart in it for her. She became a wonderful vocalist in her own right. During the Holiday season, we have made a tradition of performing together."

My New Life... "In 2001 music came alive in my life once more - not only with lyrics & music, but with a new partnership. My new husband is supportive while I pursue my desires to write & perform again. The result of my writing efforts has just been released on my 15 song original CD "Renewed"."

Grandmother... "My twin grand-daughters have prompted me to be more playful in my writing & performing. In 2006, I wrote some songs just for them, and compiled those with a few favorite covers onto a personal CD I called "Songs for My Grand-daughters - Volume 1". I intend to publish those original songs and other children's songs in the near future."
